The Evergreen State College has responsibility for the safety and well-being of audience members and participants, as well as performers and workers for any college-sponsored event. The committee drafted new policies and procedures, solicited community input, and proposed the attached policy. In Spring 2008, the Vice President for Student Affairs presented this recommendation to the President, who approved the policy. The policy has been in place on an interim basis since that time. Completion of this form will make the policy permanent under the College's Policy Development and Approval Process.
